## Foreno Loop Shower Mixer with Diverter FDC8

9 421009 512577

Congratulations on your purchase of this high quality product from Foreno Tapware.  
Please read the following before installation and retain (along with your receipt) for future reference.

### TECHNICAL SPECIFICATIONS

#### Suitable for Mains Pressure only

Minimum Pressure = 150kPa

Maximum operating Pressure = 500kPa

Maximum operating Temperature = 65 deg. Celsius

For domestic use only.

### CONFIGURATION

Mains Pressure systems Install as supplied.

Unequal Low systems This product is not suitable for this type of water pressure.

Equal Low systems This product is not suitable for this type of water pressure.

### OPERATION

To divert the flow of water, pull the small knob towards you then twist to lock to an open position.

### INSTALLATION

Installation must comply with Section 5.4 of AS/NZS 3500 Standard with regard to Isolating stop cock use. Shower mixers must be water tested with the outlet open, to prevent damage to cartridge seals; due to back pressure.

- **The red (or H) marked port is for the hot supply line which is to the left side** (looking on - please refer to the diagram above).
- Inline filters are recommended, particularly on the cold water supply line, to ensure cartridge longevity.  
**Failure to install an inline filter may void the warranty.**
- Any water seepage ex-the cartridge cavity opening can be stopped by re-tightening the large brass retaining nut.
- Turn on mains supply. Check for leaks.

**Plumbers Note: Do not pressure test this mixer under static pressure.**
