Quick and easy connection  
to all standard shower hoses

## MAINS PRESSURE FLOW REGULATOR INSTALLATION:

Insert the flow regulator with the o-ring towards the shower elbow. This will comply with the WELS 3 Star rating for water efficiency when used on Mains Pressure systems over 150kPa.

## TAPWARE MADE FOR NEW ZEALAND since 1969

Since 1969, FORENO. have been engineering, designing and refining tapware to excel in New Zealand's uniquely challenging conditions, including options for those on low, mains, and unequal water pressure systems.

New Zealand owned & operated, we design for New Zealanders, and have a tapware solution for everyone – from plumbing professionals to the DIY enthusiast.

All of our products are 100% tested before they leave the factory, and are backed by industry leading warranties and customer support, for that extra peace of mind.
