## X-Factor Laundry Combination Taps XFWM4

9 421027 590489

Congratulations on your purchase of this high quality product from Foreno Tapware.  
Please read the following before installation and retain (along with your receipt) for future reference.

### TECHNICAL SPECIFICATIONS

#### Suitable for All Pressures

Minimum Pressure = 17kPa

Maximum operating Pressure = 500kPa

Maximum operating Temperature = 65 deg. Celsius

For domestic use only.

### CONFIGURATION

Mains Pressure systems Install as supplied.

Unequal Low Systems Install as supplied.

Equal Low systems Install as supplied.

### INSTALLATION

**For pressures exceeding 500kPa install a pressure reducing valve. Failure to do so may void the warranty.**

- Turn off mains supply.
- Cut 15mm screwed tube to allow for a minimum 15mm wall protrusion and fit hot and cold tub taps. **NB: It is essential to apply either Teflon sealing tape or graphite & hemp around the screwed tube prior to installation.**
- When attaching the washing machine taps, ensure that the mounting washer is inserted between the coupling nut and washing machine tap inlet spigot. NB: Do not over-tighten nut and do not rotate washing machine tap once mounting nut tightened.
- Ensure the washing machine valves are off, if not connected to the appliance, when turning on mains water supply.
- Turn on water supply. Check for leaks.

#### WARRANTY

Please refer to our website for warranty information: [www.foreno.co.nz/warranty](http://www.foreno.co.nz/warranty)

In the unlikely event that this product fails during its warranty period, phone our Customer Service team immediately on 0508 FORENO (0508 367 366) – as unauthorised removal of the product may void the warranty.

#### CARE AND MAINTENANCE

Chrome-plated finishes should not be cleaned with astringent, abrasive or citric cleaners. A soft, damp cloth is recommended for cleaning. Mild soap solutions can also be used on occasion.
